

# When It Comes

## Plankeye

Here's a song to keep you company  
To keep you warm, to make you happy  
The day's been long, you're feeling down and out  
Something's wrong but what's it all aboutWhen it comes it steals the blue from your eyes  
When it comes and all your tears run dry  
And it comes, we'll sing you a lullaby tonightThere's a time for everything  
It's where you'll find your melody  
So sing along and chase the rain away  
It won't be long, tomorrow's another dayWhen it comes it steals the blue from your eyes  
When it comes and all your tears run dry  
When it comes we'll sing you a lullaby tonight
