Crazy World Of Love

D-side

We talk every day
We don't say what's going through our minds
It's just a way of passing time
I wanna believe I'm all you need
But the truth is in your eyes
I need to know what's inside
You're hiding away like you're just too scared to try
Don't wanna hear a heart break
But you're slowly breaking mine
[Chorus:]Tell me what's going on
Am I alone?
Here in this crazy world of love
Baby something is wrong
I should have known
That here in this crazy world of love
I'd feel lost, don't let go
'cause I need you by my side, oh
Here in this crazy world of love

I try and understand what I can
But I'm losing who you are
What used to be near seems so far
You're hiding away
Like you're just too scared to try
Don't wanna hear a heart break
But you're slowly breaking mine
[Chorus]It's heard the not knowing
Just where we are going
But in this crazy world is where we belong
I'd feel lost, don't let go
'cause I need you by my side. Oh
Here in this crazy world of love
Here in this crazy world of love
Here in this crazy world of love
