

# Last Day Sunday

## Bracket

The day I died, it was the best day of my life

And when you cried, it made me feel so good insideI will leave my insecurities to the ones who always doubted me

I just spent my last day, Sunday

Last SundayI'm satisfied, I knew that I could not survive

And when you cried, I felt it on the other sideI will leave my insecurities to the ones who always doubted me

I just spent my last day, Sunday

Last SundaySing my praises now that I'm away

Don't wipe your feet on me like you did on my last day, SundayI'm satisfied, I knew that I could not survive

And when you cried, I felt it on the other sideI will leave my insecurities to the ones who always doubted me

I just spent my last day, Sunday

Last Sunday
