

# War (prod. by Ahmir '?uestlove' Thompson)

## Dilated Peoples

[Iriscience]

War is life and war is death  
War's a vacuum but war's a breath  
And war is a war that can never be won  
But war is the way Johnny got his gun  
War, it brings students out in a rally  
War's something that I see too much in Cali  
War with black, and war with brown  
And war with everyone as the sound resounds  
in war, more than you bargained for  
War is blinding and wars ROAR  
War is getting picked off storming the shore  
And war is how the rich control the poor  
War is the boom of impending doom  
War fills history books and fills tombs  
War is my lyrics when I duel with drums  
War is the shape of things to come  
War is suffering, war is bluffing  
What is it good for, absolutely nothing!  
+War+ is one of my favorite groups  
And war is why they turn y'all kids to troops  
War, between my zodiac twin  
One want to do right, one want to sin  
War is a loop that does not end  
Cause war is often between kin and friend  
Everywhere is war and rumors of war  
I rap battle hymns cause there is a war  
Some war with God and some with the beast  
Some war for war but we war for peace - peace!
