

# Baby Doll

## Top Cats

Cruisin? down the streets at midnight  
Music boppin?, ladies rockin?  
Dudes and dudettes all over town

Saw this bird walkin? down the pavement  
Traffic stoppin?, fellas droppin?  
She just kept walkin? straight on by

And I realised she?s all I?m missin?  
I pulled my wheels aside  
And with a smile I rolled my window down

Baby doll  
You need some rock ?n? roll  
You need someone to hold you on a cold and lonesome night  
Baby doll doll doll, rock ?n? roll roll roll  
Over here, now bring it, bring it over here  
Oh, baby doll

Don?t be cruel, don?t leave me hangin?  
On a wire, my heart?s on fire  
Don?t make me beg now pretty please

Streets look good when you?re in the front seat  
Motor runnin?, bird is hummin?  
Right here beside me at the wheel

With her by my side nothing?s missing  
I turn my wheels ahead  
And with a smile I press my right foot down

Baby doll  
You need some rock ?n? roll  
You need someone to hold you on a cold and lonesome night  
Baby doll doll doll, rock ?n? roll roll roll  
Over here, now bring it, bring it over here

Baby, my ride is gonna take you high  
Straight down Rocky Road and then we?ll hit the sky

Tonight, oh yes tonight

Gonna steer us steady down Lovers Lane  
Up to Seventh Heaven and then back again  
Up to Seventh Heaven and then back again tonight

Oh baby doll doll doll  
Rock ?n? roll roll roll  
Over here now, bring it, bring it over here

Baby doll  
You need some rock ?n? roll  
You need someone to hold you on a cold and lonesome night  
Baby doll doll doll, rock ?n? roll roll roll  
Over here, now bring it, bring it over here  
Oh Baby doll

My baby doll  
Oh baby doll  
My baby doll
