Game 4 U

St. Lucia

I don't know
Guess that it's our time to go into the shadow of night
Even so, it don't make it easier
I'll be the first to admit
That something tells me now that we've bottomed out
Forgotten how to make invisible sounds
You open up your mind, I talk to the ground
Keep running 'til we drown, keep running nowBecause it's true, I only play this game for you
I always knew my heart is just a chain for youIs it so?
I thought you knew the difference
But I guess that you're right
In the open, we'll keep turning pages
And hope the apple is ripeBecause it's true, I only play this game for you
(You know I only play this game for you)
I always knew my heart is just a chain for you
(You know my heart is just a chain for you)
Stop your sweetness, I don't need it
You know you can't fool me
I always knew my heart is just a game for you
Game for youPlay the game, baby
Play the game
I'm starting the game
Until the end, I'll play it
Play the gameBecause it's true, I only play this game for you
(You know I only play this game for you)
I always knew my heart is just a chain for you
(You know my heart is just a chain for you)
Stop your sweetness, I don't need it
You know you can't fool me
I always knew my heart is just a game for you
Game for you
