Gravity Kills

Feel me - I crawl inside your veins
Give in - Consuming what remains
I am the one that you adore
You know that you've been here before
You have a gun up to your head
You think you're hearing what's been said
You know that I'll be back again
Feel me beneath your skin

Chorus:

I'm all you never wanted
I'm all you never needed
I'm all you never wanted
I'm all you never ever needed
I tell you what to feel inside
You know it's all a fucking lie
I am the one that you adore
Feel me beneath your skin

Chorus

I crawl inside your veins
Consuming what remains
A gun up to your head
You're hearing what's been said
You want to feel inside
It's all a fucking lie
I crawl inside your veins

Chorus

And I've been here before
And I've been here before
And I've been here before
And I've been here before
