Going Out

A Rocket To The Moon

We were always trying to find
A way to get back home
Partied like it was '99
Howling at the moon
Cause we get loud, a little wild when we go out
We took a yellow taxi home that night
after closing time
And drove around with one headlight
'til the driver lost his mind
Cause we get loud, a little wild when we go out
Forget about what they say
When all is said and done
We won't remember anyway
When the morning comes
When we go out we can get crazy
We can go all night
Everyone's our best friend
Everything's alright
Let's go out let's get crazy
Maybe's not allowed
Drop everything you have that gets you down
Cause we're going out

Johnny met a girl one night and planned a night alone
So we thought that we'd just drop by and let them both know
That we're getting loud, a little wild, so we all went out
Forget about what they say
When all is said and done
We won't remember anyway
When the morning comes
So if you want to stay out late
And keep the town alive
Talk about the friends you've made
And make some more tonight
Then let's get loud, a little wild, let's go out
Yeah we get loud, a little wild when we go out
When we go out we can get crazy
We can go all night
Everyone's our best friend

Everything's alright
Let's go out let's get crazy
Maybe's not allowed
Drop everything you have that gets you down
Drop everything you have that gets you down
Cause we're going out'
