Nothing To Lose

Sanctus Real

Give love one to another and
Give love one to each other and
We'll be fine
We'll be fineSo give love one to another and
Give love one to each other
We'll be fine
We'll be fineI feel alone, I feel so cold
When I am far from You for just one night
You keep me alive, feeling fine
When I've got something as good as You insideGot nothing to lose, been breaking in twos
So I need something to get me through thisGive love one to another and
Give love one to each other
We'll be fine
We'll be fineSo give love one to another and
Give love one to each other and
We'll be fine
We'll be fineThere's no better time
Than when I find You in a feeling
And know I'm doing alright
Nothing to hide, just to confide
When I've got something as good as You insideGot nothing to lose, been hanging in twos
'Cause I need You to get me through thisGive love one to another and
Give love one to each other and
We'll be fine
We'll be fineSo give love one to another and
Give love one to each other
We'll be fine
We'll be fineAnd what the world needs now
Is a little know how
To turn itself upside downWhat the world needs now
Is a little know how
To turn itself right upside downGive love one to another and
Give love one to each other
We'll be fine
We'll be fineSo give love one to another and
Give love one to each other and
We'll be fine
We'll be fineOne to another
One to each other

And we'll be fineOne to another
One to each other
And we'll be fine
