To Know You Is to Love You

Syreeta

To know you is to love you
But to know me is not that way you see
Yet you made me yeah so happy
That my love for you grows endlesslyWhen I am sad and feeling down
You always comfort me
When I am sad and feeling down
You always comfort meTo know you is to love you
Is the same as being free as the wind
For the power of your loving
To be strong to hold it safe withinWhen I am down and feeling sad
You always comfort me
When I am down and feeling sad
You always comfort meTo know you baby is to love you
But to know you it ain't that easy you see oh baby
But you make me so happy yeah
That my love grows endlesslyBaby to know you is to love you
Is to see you being free as the wind
For your power of your love
Let me know that you are as much of me
