

# Stay Frosty

## Van Halen

I journeyed to the North  
To hear what the preacher said  
"Your arms are too short to box with God  
Learn these words instead"  
Gold tooth reflecting  
My advice is free  
There's a trick to Christian values and its compulsory

Stay frosty  
That's what the preacher man said  
Stay frosty  
His words still racket in my head  
Can't control your future  
Can't control your friends  
In a world without end  
Stay frosty!  
Hey yeah  
Stay frosty now  
Ah huh right, woo!

Uh huh huh, uh huh huh  
Uh huh huh huh huh huh huh  
Uh huh huh, uh huh huh  
Huh huh, huh huh

And I traveled to the South  
The ancient Rabbi appeared to me  
Voice heavy with the sands of time  
He made me see  
Same as Kabbalah Dave but for you it's free  
God guides us on our journey  
But be careful with those feet

Stay frosty  
In a world without end  
Stay frosty  
Like the ancient immortals said  
Don't want 'em to get your goat  
Don't show 'em where it's hid  
And that's just what I did

Stay frosty!  
Woo! Look out!  
Stay frosty now

Uh huh huh, uh huh huh  
Uh huh huh huh huh, huh  
Uh huh huh, uh huh huh  
Huh huh, huh huh

I journeyed to the East  
I struggled to stay afloat  
A solitary Buddhist monk  
Threw me a rope  
Looked me in the eye  
Don't make me say this twice  
You want to be a monk, you to cook a lot of rice

Stay frosty  
In a world without end  
Stay frosty  
Work hard at this my friends  
Look beyond the Kung Fu fighting  
God is love  
But get it in writing

Stay frosty  
Stay frosty now

I wandered out West  
To the California coast  
Where the folks who know about frostiness stay frostiest the most  
My brand new landlord  
Proposed me a toast, "my West Coast host"

Stay frosty  
Chant it like a mantra  
Stay frosty  
And there's nothing you can't handle  
Far and wide far as you ramble  
Trust in Allah  
But tie up your camel  
Stay frosty!
