Obeah

The Stonewvlls

Obeah

Anything going on?
Tonight Hollywood is fantastic
Just a sling gone wrong
She swears these ashes are magic

I took a single puff
The rest in a paper bag for lunch
I wanted a pinch of sweet tea
I asked what she done and gave me

Obeah oooobeah
She calls it obeah

Next morning come down
She helped herself to stay
Another cripple and I might tap out
She says she rolling it anyway

Early morning bluff
Salt and pepper and I'm done
But I found out too late
Don't ask and its your mistake

Obeah
Obeaah
She call it obeah

Witness:
She said it's just a bit of magic
Won't you please come and see
First hit was just fantastic
And if I'm speaking honestly
When it rains it pours
And If this is only A dream
I think I can't stand waking up
Then it gets harder to breath
This loves deceiving
And as far as I can tell

Some days are better than others
While Some days that gets a bit harder to sell
That's you and me
But I'll leave you to recover
If obeahs your last escape
I pray you find another

She calls it obeah
Obeah
She call it obeah
Obeah
Obeah
