

# Antimatter

## My Place in the Cosmos

I'm antimatter  
I don't matter  
Cancer phones  
Break my bones  
I'm illusion  
Sonic solution  
Magic mind  
Sonic pollution  
I just detox  
I just see lots  
I see nothing  
Show me something  
We go round, round  
We make it safe and sound  
I try to break it down  
    Alright  
    We go round, round  
We make it safe and sound  
I try to break it down  
    Alright  
    I have visions  
    Homo Sapiens  
    Fast I've grown  
    I think alone  
    I'm confusion  
    Evolution  
    I am a man cub  
    Institution  
    I move forward  
    I make awkward  
    I just jump, jump  
    I just thump, thump  
    We go round, round  
We make it safe and sound  
I try to break it down  
    Alright  
    We go round, round  
We make it safe and sound  
I try to break it down

Alright  
I go round, round  
In my sound, sound

[Incomprehensible][Incomprehensible]Round, round  
In my sound, sound  
[Incomprehensible][Incomprehensible]I evolve  
Then dissolve  
Maintain my lies  
'Til April falls  
My sea runs red  
My trees are dead  
My breath runs short  
Please report  
Is there someone out there?  
Is there someone out there?  
Do you receive me?  
Do you receive me?  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
We go round, round  
We make it safe and sound  
I try to break it down  
Alright  
Alright  
Alright  
Alright  
We go round, round  
We try to  
We go round, round  
Make it alright
