

# Me And The Moon

## Gaelic Storm

Well you know I gotta say I met a lot of friends this way, when the sun goes down  
Just hanging with the crew knocking back a brew or two A brew or two! A brew or two or three or four! Chorus:  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
A' quarter to three, we're feeling fine when the sun comes up I'm gonna miss my friend moonshine. Well the  
dogs and the cats and those raccoon chaps in their furry hats, gathered around.  
And the rooks and the ravens started to sing and flap their wings Flap sing, flap sing, flap sing Oh!  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
A' quarter to three, we're feeling fine  
when the sun comes up I'm gonna miss my friend moonshine. Well now the possum screamed as loud as a  
possum could  
I said "I understood" when it's all inside you got to let it out. You gotta scream shout! Scream shout! Scream  
shout! Scream shout! Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
A' quarter to three, we're feeling fine  
when the sun comes up I'm gonna miss my friend moonshine. To this day they talk about their night  
When the moon, the raccoon the possum and the hound  
Danced around, danced around danced around, danced around Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
Me and the moon stayed up all night;  
I brought the whiskey! He brought the light!  
A' quarter to three, we're feeling fine  
when the sun comes up I'm gonna miss my friend moonshine.
