Moongirl

stellastarr*

Outside, there's a spaceship
Blocks the sun
Forms a shadow hovering over meYesterday I had missed it
But today, there's a girl who shows me everythingI said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirlLet's surf on the horizon
To the moon were the world will look much clearer to meOne day I'll be finished
But today, there's a girl who shows me everythingI said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirl
