

Split Personality

Skye Sweetnam

I am taking you over to the dark side
Rock 'n' roll I'd like you to meet
The other side of me
Gotta getcha, gotta getcha, gotta getcha When it's time to rock
She's a celebrity
Gotta getcha, gotta getcha, gotta getcha I got you, I got you
And now she's got me She drowns me out
When I shout
I'm so overpowered I cannot hide
From the opposite side
When she takes me over Flip the switch
Makes me split into insanity
Gotta getcha, gotta getcha, gotta getcha Out of control
Shocking like electricity
Gotta getcha, gotta getcha, gotta getcha I got you, I got you
And now she's got me She drowns me out
When I shout
I'm so overpowered I cannot hide
From the opposite side
When she takes me over Let's co-exist
What's wrong with this
What's wrong with this
What's wrong with this She drowns me out
When I shout
I'm so overpowered I cannot hide
From the opposite side
When she takes me over
When she takes me over I cannot hide
From the opposite side
When she takes me over
