

A House or Maybe a Boat

Hawksley Workman

I think I will find some wood and build a house or maybe a boat

I dont know

Just a place to call my own

So when you come to by drink some wine

There'll be a roof outside all night

But I have never been so good with a hammer and nails

So patience baby Christmas may be miles away

But that's the day I should be done

So bring your kisses and a couple of clementines

To go with the wine

And well keep the rind

Cuz the smell is just right at christmas time

And then we'll join our voices there but nothing you dismay

Remember Christ the Savoir was born on Christmas day

So come lets invite both our families

To sing while the piano accompanies tonight

Don't worry 'bout the dishes come beside me dear

We'll kiss for the rest of the year if thats alright

And I think I might find some wood and build a house

Or maybe a boat

I dont know

Together... together... together we'll float...
