

Days

The Drums

And now days go by
And i never needed you
And now days go by
And i never needed you And i worked so hard
And i killed myself
And i broke my bones
And you sold my soul And now days go by
And i never needed you
And now days go by
And i never needed you And i could've been your mother
And i could've been your sister
Be your twin brother
I just wanted to be
Wanted to be And now days go by
And i never needed you
And now days go by
And i never needed you We were just wasting time
