

# Coming Down

## Buchanan

You were hanging the sheets out to dry,  
While the union was stuck on the line  
Hadn't spoken in days, I was smoking in silence,  
Here we go, for another round

And night it remained in the sky  
The lightening it barely went by  
We would talk of being ready, a promise that barely remains  
You remain

Na na na, na na na

And I'll wager you'll come back around  
An idea more than just to be found  
In an age where we're all coming down  
Coming down

Na na na, na na na

Coming down x 5

A million ways to part, should we miss the mark,  
But you're the one I love, the one I love  
Oh separation, it goes, oh how it ebbs and flows  
My exclamation mark, the one I love

And I'll wager you'll come back around  
An idea more than just to be found  
In an age where we're all coming down  
In an age where we're all coming down

Na na na, na na na

Coming down x 5

Na na na, na na na
