

Girls Will Be Girls

Sherry Lynn

I can still remember me and my sister
Raiding mommas makeup, lipstick all over our face
Yeah what a mess we made

And Back when I was 15 Iâ€™d leave the house in blue jeans
Take a short skirt and change when I got to school
No momma she never knew No

Spring break â€™ college days
All Iâ€™m gonna say about that
Is Girls will be Girls
From the start of this old world
Weâ€™ve been shaking things up
Oh the trouble we can get into
Breaking heartsâ€™ taking names
Driving all the little boys in sane
and that ainâ€™t ever gonna change
oh girls will be girlsâ€™ will be girlsâ€™ will be girls

the boys can have their Harleys all those bachelor partyâ€™s
they get a little wild andâ€™ they think their the crazy oneâ€™s
ainâ€™t got a thing on usâ€™. no
after a few margaritas oh you ought to see us
talking trash dancing on the bar
every eye in the roomâ€™ watching our every move
and when we get loud they donâ€™t kick us outâ€™ they just shake their heads

and say Girls will be Girls
From the start of this old world
Weâ€™ve been shaking things up
Oh the trouble we can get into
Breaking heartsâ€™ taking names
Driving all the little boys in sane
and that ainâ€™t ever gonna change
oh girls will be girlsâ€™ will be girlsâ€™ will be girls

weâ€™ll let you see our sweeter side
if you hold us close and treat us right
and if your lucky weâ€™ll even let you put a ring on our hand
as long as you understand

that girls will be girls girls will be girls oh girls will be girls will be
breaking hearts taking names driving all the little boys in sane
and that ain't never gonna change
oh girls will be girls will be girls will be girls
