Forever Winter

Emma Forman

It is forever winter when you are around
bringing me down is all that you do
you tell me a story but it's not the truth
it never is with youI'm trying to find a place that warmer
your heart is so cold
You leave me alone, alone up to my ancles in the snowI'm standing on the outside of the darkside of the wall
the wall that you built to keep me out in the coldYou never really let me know you
I'm always standing on the outsideIt's forever winter
It's forever winter
It's forever winter loving youIt's forever winter when I look you into eyes
They are bright, they are mystical and blue
but they never answer any of my questions
they just lead me astray
they lead me to emptiness
Oh they lead, nowhereYou never really let me know you
I'm always standing on the outsideIt's forever winter
It's forever winter
It's forever winter loving youIt's forever winter
Oh It's forever winter loving you
