

Lay Down

Son Little

Baby, won't you lay, lay down

Let's watch this water boil

Let the others run around

For once, Baby, won't you lay, lay down

And watch this water boil

Let the others run around

Just this once

Lay down with me a moment Let me ease, let me ease your worried mind

Lay down and drift a moment

Let's not waste anymore of our precious time

Baby, won't you lay, lay down Let's watch this water boil

Let the others run around

For once

Said baby, won't you lay, lay down

And watch this water boil

Let the others run around

Just this once,

Let your hair down and pull the curtain

Let me see, let me see you in the light

Just lay down, your words are worthless

Let me hold, let me hold you through the night

Said, baby, won't you lay, lay down

Let's watch this water boil

Let the others run around

For once

Baby, won't you lay, lay down

And watch this water boil

Let the others run around

Just this once,

Said, baby, won't you lay, lay down

Let's watch this water boil

Let the others run around

For once

Said baby, won't you lay, lay down

Lay down, lay down, lay down

Let the others run run run run run around
