

Outta the Sun

The Crispies

[Verse 1]

Outta my mind
I'm working that dead end smile

Can't feel my face
And I'm too stoked to die

I wonder if you're
Ever gonna get bored

Cutting me down
I guess I won't get back home

[Chorus]

And now it feels like you've won
Pressed my head against a gun
For too long, I've belonged to everyone

I stay outta the sun

Run Run
You've won

You've won
You've won
You've won

[Verse 2]

Them pretty boys
They dig a shallow grave

Never get stuck we
Only end up getting paved

Don't you go on
Hasn't it felt so wrong

You'll never know
Where my mind could have gone

[Chorus]

And now it feels like you've won

Pressed my head against a gun
For too long, I've belonged to everyone
I stay outta the sun
Run Run
You've won

You've won
You've won
You've won

[Solo]

[Chorus]

And now it feels like you've won
Pressed my head against a gun
For too long, I've belonged to everyone
Pressed my head against a gun
For too long, I've belonged to everyone

I stay outta the sun
Run Run
You've won

Gonna swallow my gun
Run Run
You've won

You've won
