

# Where They Do That At (feat. Wale)

## Sabi

Any time the lights go off when I'm alone with you  
I've been doing plenty things I know I shouldn't do  
    La la la la la tear them down  
    Gimme love, gimme love, gimme love  
    If I take it there with you  
    You know we can't be friends  
    Ain't no use in meeting you, even try to pretend  
    Na na na na how I feel down down  
    Gimme love, gimme love  
    Say you want me, then I want you to  
Say you need me, then I need you toJust say you miss me and never call back  
    Where They Do That At?  
    If you kiss me, I'ma kiss for you  
    Did you touch me? or did I touch you?  
Just dont say you love me and never come backWhere They Do That At?  
    Where They Do That At? [repeat]  
    Just say you miss me and never call back  
    Where They Do That At?  
    Where They Do That At? [repeat]  
    Just say you love me and never come back  
    Where They Do That At?Wale, they call me crazy  
    Haters call me all the time  
    They ladies call me craaaazy  
    Don't aim me, don't speak to me with all that reckless  
    My facebook men on fire though, so my blackberry on tetris  
    Where they do that at?  
    I say wherever I be  
    We gettin' low on whoever climb that medical tree  
    Easy to get them to like you as harder to get them to leave  
    Cause if you get them to scream, they never lettin' you breathe  
    If you kiss me, I'ma kiss for you  
Did you touch me? or did I touch you?Just say you miss me and never call back  
    Where They Do That At?  
    Keep it right there, don't you change a thing  
    I'll be right here when you turn to leave  
    Just say you love me and never come back  
    Where They Do That At?Where They Do That At? [repeat]  
    Just say you miss me and never call back  
    Where They Do That At?

Where They Do That At? [repeat]  
Just dont say you love me and never come back  
Where They Do That At?  
You know I love them when they're insecure type of guy  
But I just wanna be loved baby, loved right  
...  
I love you baby, if you love me  
Where They Do That At? [repeat]  
Just say you miss me and never call back  
Where They Do That At?  
Where They Do That At? [repeat]  
Just dont say you love me and never come back  
Where They Do That At?
