The Way You Move

Simple Jack

Woke up reaking like Cologne and sweat
You were, Laying naked and a dripping wet
So I, woke you up and showed you the door
After making sure I got to hit that shit once moreI had to reminisce about the night I led
Lit a joint then went back to bed
When I, couldn't sleep I went out to the beach
I went looking for the chicas that were out of my reach
Hit the tiki bar cuz it had a hot band
The music thumpin had the girls out of hand
Girls bumpin I was enjoying the view
When I, saw you walking by right on cueChorusWe stumbled out heading back to the house
When she grabbed my hand stuck it right up her blouse
She led me to the beach and said I have the key
Threw me down and started grinding up and down on me
She screamed out my name as she began to climax
Lit up a smoke and layed back to relax
We parted ways never to see again
Fuck if I really need another friendChorusI headed home but stopped on the way
Hit up the whale to hear some reggae
I heard a sound coming from inside
Pumping the crowd I never felt so alive
All these girls grinding up and down on me
I eyed her up, in her body I'd like to be
I grabbed her hips and pulled her to me
She was looking for a private party with meChorusWhen I smoke It makes me feel horny,
That's what she said when she left with me,
Picked up a wrap and some natty light
We blazed away, man her body was tight
When I finished she asked for my name
I said, It doesn't matter I don't play that game
With a smile she said lets run it back
I turned her over and gave her ass a smack
