Kill the Night

Prom Queen

red light in my head tonight
a hand on a match that is about to strike
words on my tongue that I want to bite
your eyes are obstructed from my sight

hot blood in my veins tonight
sizzle when it meets the tip of your knife
blood from my heart starts beating wild
shaking like a tight fist turning white

kiss me baby kill the night (x4)

red light in my head tonight
a hand on a match that is about to strike
words on my tongue that I want to bite
your eyes are obstructed from my sight

kiss me baby kill the night (x4)

kill the night
