Lost

Showaddywaddy

I'm lost, can't seem to find my way
Who'll help me through, this my longest day
I'm lost, and I can see no end
End to my tears, though I might pretend pretty good
I'm lost, just when she taken all
Now only memories can break my fall
I'm lost, she was my everything
Now like a bird on a broken wing I'm so lost
Heaven help me give me strength to carry on
Time to heal will always take so long
I'm lost, God send her back to me
All of my life I was wild and free now I'm lost
I'm lost, can't seem to find my way
Who'll help me through, this my longest day
I'm lost, and I can see no end
End to my tears, though I might pretend pretty good
I'm lost, please help me find my way
