DMT Song (feat. Thundercat)

Flying Lotus

I can take you
To a world where you can spread your wings
And fly away
Patterned grid world
It waits for you and it has always
Been there from the startMaybe you and I are not so
Different (different)
Lately I have seen your world in full
DMT DMTAs Im dreaming
Wide awake my body never leaves
The floor
I never want to come back
I belong where I am at
