Empty

PVRIS

You see all the world to believe
That there's a lot inside of me
But it's time that I'll come clean
I'm not what I seem, no
Some would say I'm possessed, yeah
But I'll confess, I've just been obsessed
With life and death and emptiness, I guess
Can't you see all of the change in me?

You took these starving limbs, try to see
Try to see what they could be
I thought it would be something
I thought you'd complete me
That you'd erase all the pain that I felt in my brain
If you fill my heart with love
Then you'd fill my voids above
And now you see I didn't change a thing

What do you want from me?
What do you want from me?

I'm empty, I'm empty
I'm empty, I'm empty
