Always

Steve Green

You are good always and in all ways
You are working all things together for our good
You are good always in big and small ways
I know I can trust You in everything You do

With the hard winds of life blowing out of control
It can feel like I'm all on my own
But You've given me Your word and I know You'll never leave
And I've never faced a single storm alone

You are good always and in all ways
You are working all things together for our good
You are good always in big and small ways
I know I can trust You in everything You do

I can't say it's always been a smooth open road
Or turned out the way I'd prefer
But one thing I'm sure of You've been faithful to me
And I'd live to give You all that You deserve, all that You deserve

You are good always and in all ways
You are working all things together for our good
You are good always in big and small ways
I know I can trust You in everything You do
Yes, I know I can trust You in everything You do
