# Heroin, Vodka, White Noise

## Ash

(wheeler / hamilton)Heroin, vodka and white noise
Snow falling outside, on the way home
Past the street lights, night sky
All the way down the west
In this dream I had travelled by the nightlineLose everything and find yourself (repeat)Yeah walk easy, easy on your feet
Doomed grandeur never feels so sweetLose everything and find yourself (repeat)There's more to you than I will ever see....
There's more to this than I will ever dream of....The secret of love
And the secret of death
Both one and the same
Both seal my fateBaby doll, I've dreamt about you
Snow falling outside, on a nightline
There's more to you than you will ever show
There's more to this than I will ever knowLose everything and find yourself (repeat)Walk easy, easy on your feet
Doomed grandeur never feels so sweetLose everything and find yourself (repeat)There's more to you than I will ever see
There's more to this than I will ever dream ofThe secret of love
And the secret of death
Both one and the same
Both seal my fateYeah walk easy, easy on your feet
Doomed grandeur never feels so sweet
Walk easy, easy on your feet
Doomed grandeur never feels so sweetThe secret of love
And the secret of death
Both one and the same
Both seal my fate
The secret of love
And the secret of death
Both one and the same
Both seal my fateSo walk easy, easy on your feet
Doomed grandeur never feels so sweet
So walk easy, easy on your feet
Doomed grandeur never feels so sweet
So walk easy, easy on your feet
Doomed grandeur never feels so sweet
So walk easy, easy on your feet
Doomed grandeur never feels so sweet
