

# Modern Day Drifter

[Dierks Bentley](#)

I'm gonna be a modern day drifter  
And get out while I can  
Gonna trade in this life I've been livin'  
For a pocket full of sand  
And a modern day drifter don't have to tell no one his plans  
I'm gonna find that long stretch of highway  
Where no one knows my name  
Where as long as the sky just goes on  
And it's never the same  
A modern day drifter don't ever complain  
Bye, bye, hi life  
Feels like the right time  
To say so long keep on goin' strong  
And I'll just keep on bein' gone  
'Cause I'm gonna be a modern day drifter  
Yes I am  
I'm gonna slip this ring off my finger  
'Cause everybody understands  
That a modern day drifter's got nothin' but time on his hands  
Bye bye hi life  
It feels like the right time  
To say so long keep on goin' strong  
And I'll just keep on bein' gone  
'Cause I'm gonna be a modern day drifter  
Oh yes I am  
I'm gonna slip this ring off my finger  
'Cause everybody understands  
That a modern day drifter's got nothin' but time on his hands
