

# Where You've Always Been

## Annie Moses Band

Daddy lost his job today  
Mama says we'll move away  
I'll say goodbye to all my friends  
Fight the tears that I hold in  
It's hard to leave where you've always been  
Pack up and think you can't go back again  
Hold on to everything  
O how do you begin  
When your leaving where you always been  
Mama baked my wedding cake  
Daddy tried to hide the ach  
But if he knew I felt it too  
He would help us both get through  
It's hard to leave where you've always been  
Pack up and think you can't go back again  
Hold on to everything  
O how do you begin  
When your leaving where you always been  
Oh oh oh  
Life is full of changes rearranges and regrets  
But love will find your peace of mind  
And you will not forget  
No you won't forget  
My children say to let it go  
Daddy's gone you've grown old  
Say goodbye to bricks and walls  
The memories within the halls  
It's hard to leave where you've always been  
Pack up and think you can't go back again  
Hold on to everything  
O how do you begin  
When your leaving where you always been
