It's About Time

Van Halen

Turn, turn, turn, turnLast time, wrong time
Outside, out of line
Yeah, but this time's our time
And right on, we'll let it shineGet up, turn your clock back
Paint it red on black
Bring it all right back
Oh hell, yeah, come on, alright, hey hey heyYou can spend my money
Don't you waste my time
(My time, my time)
Well right now makin' up for lost time, yeah, alright, alrightI think it's high time we lay it out there on the line
Now it's about time
It's about time
It's about time, yeahBright lights, old fights
This time we got it right, yeah
It's been a long time, overtime
Second flash, you're out of sight, yeahSo get up, turn your, your clock back
Paint it red on black
We get it all right back
Oh hell, yeah, yeah, come on, it's alright, hey hey heyYou can spend my money
Don't you waste my time
(My time, my time)
Well we're about to make it up to your big time
(Big, big, big, big time)
Well it's about time we lay it out there on the lineIt's about time
It's about time
It's a just about time
It's just about time yeahRe turn, re turn, re turn
Turn, turn, turn[Incomprehensible]It's alright, yeah, spend my money, don't waste my time
(My time, my time)
Well we're gonna make it up to your big time
(Big, time, big time)
Because it's about time we lay it out there on the lineIt's about time
It's about time
It's about time
It's just about timeIt's about time
It's about time
It's all about, talk about
I wanna know, there ain't no doubtIt's about time
Yeah, yeah, yeah

It's about time
Turn your clocks back
