Big World

Stevie McCrorie

When you came into my life, you broke
all my walls down.
but now you build them up again.
And i remember , I remember the fear of
not knowing if i can,but now i know that i can, my girl.
And if you need me, I'II be there in this big
bad world that we're living in, where we all
could use a hand.I will take your hand,don't go changing
too soon.
Cause I just want to hold you how you
are...
Don't go growing too fast,cause i like it how you speak and you
don't make sense
cause you are mine , cause you are mine
cause you are mine.
So i think I'll go face some fire, just so
this life can burn you.And I'll try and sing my way to the top
just so your head can live in the clouds.
And when you need me, I'll still be there
in this big bad world that we're living in,
where we all could use a handI will take your hand don't go changing
too soon...
cause i just wanna hold you how you are.
Don't go growing too fast
cause i like it how you speak and you
don't make sense,
cause you are ,you are ,you are mine
You are, you are, you are mine
you are mine
and we are, we are, we are fine
we are, we are, we are fine
we are fine as we are.
