

Where Is This Going (feat. Levitti)

B Legit

Even though I wanna put the smash down I wanna take my time, I'm tryna peep you out
Where is this goin?
Where is this goin to? Maybe you and me can be an item, but ain't no guarantees you wanna tide of
Where is this goin? (oh baby)
Where is this goin to? Somethings on my mind girl, I'm tryna get over this madness, my heart is filled with
sadness
I need your minds with habit
Ain't no rush, what to do, I wanna get to know you
Cause when I've lied of things I told you, but I think it's time I show you
Where is this goin?
Where is this goin to? x4
