

# Hang Up Your Boots

## The Business

Advisory - the following lyrics contain explicit language:

(featuring Bombshell Rocks)What you do that's nothing new  
It's all been said and done  
You can do whatever you want  
If it's what you call fun  
You can hang around with all you pals  
Drink 'til you are beat  
Dirty looks to all you pass  
Walking down the streetHang up your boots  
Hang up your bootsFor six years now the same old shit  
has played in every town  
They talk about the same old shit  
We did years before  
The kids today couldn't stand one song  
In the pits we had back then  
But now they're older and we don't care  
So now they're out againHang up your boots [x22]
