

Loop Duplicate My Heart

Suburban Kids with Biblical Names

And it's bigger than everything I have ever done before.

And it's bigger than everything I have ever done before.

I've found a reason for staying home tonight.

Just by myself tonight.

All by myself.

I'm gonna loop duplicate my heart into a million songs.

I've found a reason for going out tonight.

I'm making out tonight...

With my computer.

I'm bringing guitars on hold on my multi-track goes around.

And is it really so?

So many interesting effects I wanna try.

I wanna try them more on you.

And it's bigger than everything I have ever done before.

Can't get no sleep tonight.

Feels so good tonight

Damn, it feels so sweet tonight --

All by myself!

The neighbors can't complain 'cause I got my head phones on.

Can't get no sleep tonight --

Damn, it feels so good tonight!

Everything is alright now

(my computer)

I'm gonna sing a million songs for you

So I hope you enjoy it.

And is it really so?

So many interesting effects I wanna try.

I wanna try them more on you.

And it's bigger than everything I have ever done before.

And it's bigger than everything I have ever done before.

And it's bigger than everything I have ever done before.
