Good To Be Bad

Lordi

Pigtails
The cutest smiles
But it's all delusion
Kneesocks
The sweetest eyes
It's just a grand illusion
When they're bad
they just get better
Like saints full of sin
and again the constrictor queens
will shed their skin
All the naughty lordi girls
They know it's good to be bad
They're gonna claw before they purr
They know it's good
Good to be bad
She-Hulk's
In a girl disguise
You'll fall into confusion
Now they might
Play it nice
But you're heading for an execution
When they're bad
they just get better
Like saints full of sin

And again the constrictor queens
will shed their skin
All the naughty lordi girls
They know it's good to be bad
They're gonna claw before they purr
They know it's good
Good to be bad
Yeah, yeah, yeah!
[Solo]All the naughty lordi girls
They know it's good
They know it's good
All the naughty lordi girls
They know it's good to be bad

They're gonna claw before they purr
They know it's good
Good to be bad
All the naughty lordi girls
They know it's good to be bad
They're gonna claw before they purr
They know it's good
Good to be bad
