

# Before Your Father Hears Us

## The Family Crest

Before your father hears us dear  
I have something I have to say  
I need you ever closer dear  
I need you here both night and day  
Don't let him stand in our way!  
Before your father hears us dear  
Love, let us fly into the dark  
And how we flee into the night  
Our bodies cast beneath the stars  
Don't let him tear us apart!
