Now Hear In

Cloud Nothings

[Verse]

I go outside and see all these things that should be real
Come on, you're a part of it, can you breathe or can you feel?
You're not the same as me but I know we share a thing
No use remembering how it used to be so real[Chorus]
I can feel your pain, and I feel alright 'bout it (x4)
We're moving quickly to the same (Now hear in)
I feel there's nothing left to say (Now hear in)
A simple life could be so strange (Now hear in)
If we're just living here today (Now hear in)[Verse][Chorus][Outro]
You know there's nothing left to say (Now hear in) (x4)
