

Wedding Bells (Chris Intro)

Coldplay

Those wedding bells ringing up upon that hill
And I don't wanna swallow such a bitter pill
You keep on moving but I stay still
But I always loved you and I always will. Days of no sleeping
Caked in mud
All kinds of poison in my blood
I lost the only thing I ever loved
Oooh...I heard them ringing and processioning by
Umbrellas in the clear blue sky
I saw you swimming in that sea of white
Oooh...And wedding bells ringing up upon that hill
And I don't wanna swallow such a bitter pill
You keep on moving baby, I stay still
I always loved you and I always will.
Ooooooh...
I loved you and I see it still
I always loved you and I always will
Singing, oh lalalalalalalalala...
If everything that went before didn't matter, so
Lalalalalalaaa....
I always loved you and I always will.
