What Is Love

Jaymes Young

What is love,
is it the feelin that i get
when your lips touch mine..... (You know love is whatever you make it girl)
(come on)
Is it the way i cant control myself,
when we're in the middle of those passionate nights.... Babe!
(is like everytime im with you baby)
Magic:
I think love is when i look into your eyes
the way it seems like your body was meant to be
every minute right here next to mine
my super sexy valentine
Tiffany:
But you must of known.....
that all the little things you do and say to me
you know i love them, but they got me wondering..

Tiffany:
what is love, is it the feelin that i get when your lips touch mine.....
Is it the way i cant control myself when we're in those passionate nights.... babe!
Magic:
nobody ever gonna love your momma like i will
turn off the lights and bring your body closer
this night was made for you and I
slowly momma take my time
Tiffany:
Baby boy... can you show me the meaning of love...
cause i got to know...
what is love is it the feeling that i get when your lips touch mine...
is it the way i cant control myself when we're in the middle of those passionate nights.... babe!
what is love is it the feelin that i get when your lips touch mine..... is it the way i get when we're in the middle of those passionate nights... babe!
