bookends

Bloodkin

I've got a driver, you've got a car
Maybe we could go out for a ride
Pass by the schoolyard, take a look around
Stop and get uptight
If you're going to cryI can remember all the good times
Put 'em in a book of memories
Hoping that our book will never ruin
Hoping that our book will never endYou picked a flower, some time ago
Put it on my desk
At school that day
Thought I would write you
A small love poem
Though I got it from a book, you seeI can remember all the good times
Put 'em in a book of memories
Hoping that our book will never ruin
Hoping that our book will never end
