## Deftones

I can't tell  
How's this shit all my fault  
It's at the time and  
I feel like they should And I say commands just because I can  
Oh I can just imagine the difference it has Straight out of your mind  
You see I'm well aware  
You're out of your mind  
Its straight I said your name  
It slipped off my tongue  
Pointed at the camera laughing at you  
Ha ha  
Once again  
You see no one cares  
Its how you wear it, not what it is! Straight out of your mind  
You see I'm well aware  
You're out of your mind  
Straight out I can't tell, how's this shit not your fault  
Bitch you're Barbaricking off this earth  
Switching command just because I can  
I'd like to see you wear it  
Why can't I stare Switching command just because I can  
And if I let my guard down  
Who knows what then  
Once again  
Just because I can  
Just because I can
