

So Bold

Wiretree

My freaking brain is going down the gutter
i'm trying to spit it out but why does it bother

marble flakes of frozen holiday cake
keeps me staying up so very late

feeling so cold
skin is dry
feels so bold
when she comes to pry

it's ten o'clock in the day
and i feel much better
something always brings you down and makes you wonder

feels so cold
skin is dry
feels so bold
When she comes to pry
coming down
with your pride
feels so bold
when she comes to pry

bridge

it's ten o'clock in the day and I feel much better
something always brings you down and makes you wonder
