

Speaking of Truth

Laleh

Soft like trees in water
Shaped to soothe and move
After mood and weather
In the waves you will float I'm looking after ground
I'm looking for a new; a way of living
This can't be it
you shake the ground Mountains move
I'm made to move after your flood
so moved by you
you're taking it, taking it back
I'm so dried out in this desert
let me know
I wanna be with you
Speaking of floods
Speaking of truth (x5) You take it, take it back
You're taking what you want You are soft like stone in water
You are shaped to soothe and make
all your corners round and lovely
while you're running down the lake Mountains move
I'm made to move after your flood
so moved by you
you're taking it, taking it back
I'm so dried out in this desert
let me know
I wanna be with you
Speaking of floods
Speaking of truth (x5) Eh, Oh! speaking of truth You take it, take it back
You're taking what you want
