

# I Believe In America

Chris LeDoux

This country's seen some hard times  
Lord knows she's deep in debt  
She's comin' through another depression  
And for some it ain't over yet We've all been divided  
Playin' our own selfish games  
Why does it always take the hard times  
To get people back together again But I believe in America  
I believe in America  
One nation under God  
Still proud and strong I believe in America  
I'm proud to be in America  
Though I know in America  
We've gotta right, some wrongs But I don't believe you can keep  
America down for long Now if you read the papers  
Or listen to the news these days  
Sometimes there don't look like  
There's much hope left for the good ole U.S.A. This country she ain't perfect  
But thank God she's still free  
An' she's gonna make her comeback  
Yes Sir, just you wait and see An' I believe in America  
I believe in America  
One nation under God  
Still proud and strong I believe in America  
I'm proud to be in America  
Though I know in America  
We gotta right, some wrongs But I don't believe you can keep  
America down for long I believe in America  
I believe in America  
One nation under God  
Still proud and strong I believe in America  
I'm proud to be in America  
Though I know in America  
We gotta right, some wrongs But I don't believe you can keep  
America down for long
