Close To You (AC-Koma Mix)

Rollergirl

I wanna get close to youI wanna get next to you
Never felt the way I feel for you
And that's when I get close to youI'm never feeling blue
When I get close to you
Never in my dreams or in between
You're the only one I meanIn my heart the fire's burning
More than I can say
To whom it might concern
Never go awayI wanna get close to you
I wanna get next to you
Never felt the way I feel for you
And that's when I get close to youI never feeling blue
When I get close to you
Never in my dreams or in between
You're the only one I meanWhen passion rules again
I feel the love inside
And beyond tears and pain
There's no more need to hide
Never go away
