Take Me There

Mudhoney

Feeling so dull in the middle of action
Out on the prowl looking for a distraction
I found you out looking unaware
I knew if you could, you'd take me thereCome on
Yeah
Oh
Take me there
Take me thereFollowing you to provoke some reaction
Turning around, face to face with satisfaction
Living so cold in a world I care
You know I'd love you to take me thereThat's right
Oh
Oh
Take me there
Take me thereI can tell from the look on your face
You've been shown around a better place
I can tell from the look in your eyes
That place here just ain't right
I can tell from the smile on your lips
It must have been one hell of a tripTake it baby, no I don't care
Take me now, just take me there
Oh
Take me there
Oh
Take me there
Oh
Take me there
Oh
Take me there
